Dear Parents:

Due to the fact that in Ecuador, and specifically in Quito, solar radiation often reaches high levels that can be dangerous, our School continually monitors this information on the web page of UNAMHI.

On the days that are critical, we take certain precautions, within our possibilities, to avoid an over exposure to the sun, taking into consideration that our spaces are limited for such activities as sports, extracurricular activities, recesses, among others.

It is our expectation that parents send students with caps and sun block and they carry sun block in their school bags.

Thank you for your cooperation,

Susan A. Williams
